

## TurningPoint Anywhere – Voting Session Results

Connect the TurningPoint receiver to the computer (you can use a lecture room computer). Start than the TurningPoint Anywhere (note that in the lecture room you will not find it on the desktop but you need to find TurningPoint in All programs).

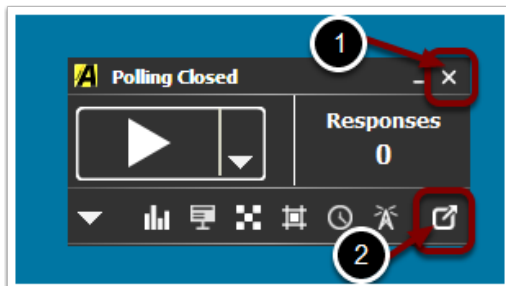

Press Poll on the Start Screen to start the polling tool.

Note that the Receiver **should be detected** (for this manual no receiver was used)!

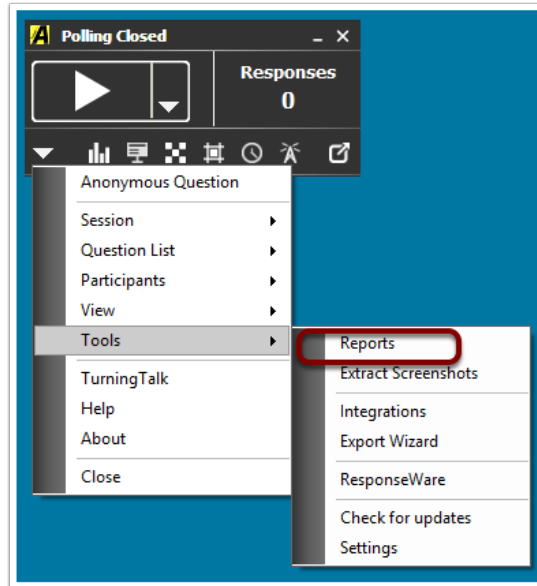

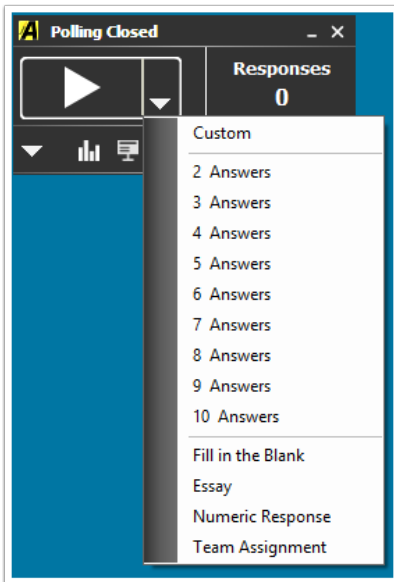

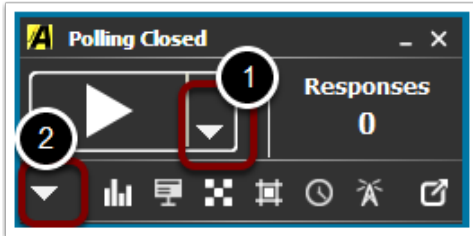

- 1 – Press the X to return to Start Screen
- 2 – Press to minimize/enlarge the Polling tool on your screen.

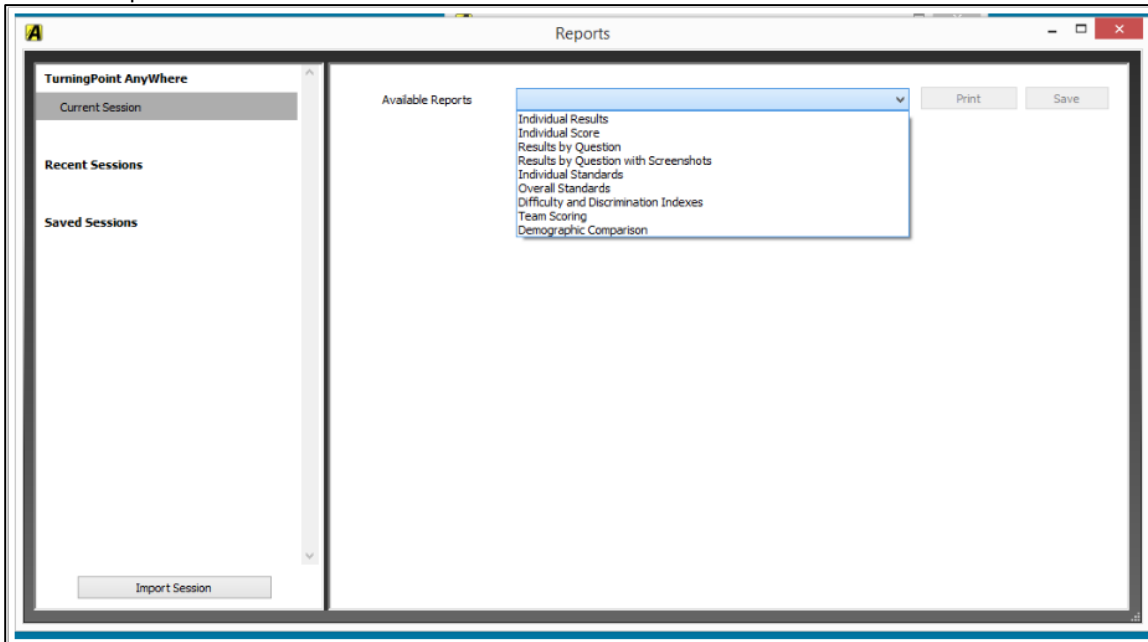

Note that the Polling tool always remains on your screen above all your programmes that you use. You can move it with the mouse to one of the corners of the screen. You can remove it from the screen by pressing **\_**, see next to the X (1). Get it back by pressing the Anywhere icon.

## Polling and results of polling

- 1 – here you can set up the number of alternative answers in polling.
- 2 – here you can find Tools where you can create Reports of your voting session.

Choose Reports:

You can find your results also when you return to TurningPoint Anywhere Start Screen, go to Results and Run a report. You can get the report in Excel format.
